

Installation of Ricoh Sublimation ICC Profile

To install the Ricoh ICC Profile for use with the Ricoh Sublimation ink, please follow the subsequent instructions:

1. Locate the Ricoh ICC Profile and **'Right Click'** on the icon, and select **'Install Profile'**.

The Profile is now installed on your PC (Note: no confirmation is shown on screen). To confirm the profile is installed **'Right Click'** on the file again, the menu will show **'Uninstall Profile'** don't choose anything on this menu, just click off screen to cancel.

Exceptions: Some versions of Windows 95 and 2000 will not show **"Install Profile"** on the context menu.

If this is the case with your PC, the ICC file will need to be manually copied to your system.

Copy the file Ricoh ICC Profile to:

Win 95,98,98se,ME----- to ----C:/Windows/System/Color

Win NT4----to---- C:/winnt/system32/color

Win 2000---to----C:/winnt/system32/spool/drivers/color

Win XP, Vista ----to----C:/windows/system32/spool/drivers/color
